- Digital Marketing
- Negotiation
- Critical Thinking
- Communication Skills
- Learning
- Team Work

LANGUAGE

- English
- Turkish

PROFILE

"I was born in Turkey and completed my associate degree in Turkey. Afterwards, I worked at an advertising agency where I was involved in creating various websites. I gained my most significant experience in an e-commerce project that lasted about a year, during which I acquired substantial knowledge and skills."

WORK EXPERIENCE

Eczaburda Ltd.

2020 - 2023

Frontend Developer

- Working with the wider development team.
- "I started working at Eczaburda Ltd, where I contributed to the frontend development using Next.js and TailwindCSS, including implementing user authentication functionalities. For order management and viewing orders, I utilized the headless CMS Strapi. This allowed me to manage products, categories, and orders while seamlessly integrating user login and registration functionalities. Additionally, I implemented the payment gateway integration with Iyzico. In the order panel, I handled fetching and displaying user-specific address and order details via API."

Procollec Technologies

2019 - 2020

Hibiskus Adworks

- Some static websites with html,css,Javascript<
